BREED SUITABILITY TEST INFORMATION

The BST is designed to select those Rottweilers that are worthy of being bred. The dog's conformation must be judged for breeding quality and free of disqualifying faults. The dog must have a valid OFA or GDC number or a rating of HD- or HD+/- and have a tattoo for identification. Once the conformation and soundness qualifications have been met, the dog's temperament is tested. This test includes a gun sureness test, a protection test, and test to ensure the dog is stable around the public. The USRC strongly believes that these tests are vital to maintain the Rottweiler in type and temperament.
